#### The stand of Laffanour Galerie Downtown

The Parisian gallery, which specializes in mid-20th-century design, made excellent use of its corner exhibition space, anchoring it with a massive, hypnotizing kinetic ball sculpture by Takis from 1984, which is priced at €250,000 (\$308,000). The stand was punctuated by several of the 92-year-old Greek artist's signature "signal" works, which are tagged in the €55,000 (\$68,000) range. Laffanour is also offering prime statement pieces by Jean Prouvé, Charlotte Perriand, Jean Royère, Le Corbusier, and Isamu Noguchi.
